

ENVIRONMENTAL POLICY

The Management and Staff at Abrolhos Steel are committed to the protection of the environment, including prevention of pollution and minimisation of waste relevant to our operational processes.

With a proactive approach, we are committed to achieving and demonstrating sound environmental and social responsibilities. We control impacts of our activities and continually improve our environmental management system.

Environmental Objectives

The management and Staff at Abrolhos Steel are committed and will strive to:

- Implement processes to minimise waste and protect the environment
- Actively promote recycling both on our work sites and within our administrative processes
- Minimise environmental impacts on work sites visited by adhering to all site requirements
- Purchase environmentally friendly products wherever possible

To achieve our objectives, we will:

- Develop and implement procedures, processes, and instructions to ensure protection of the environment
- Define and meet objectives, by documenting and monitoring measurable environmental targets as part of our continual improvement process
- Conduct regular management review meetings to ensure our environmental management system is reviewed and controlled appropriately
- Ensure compliance to all statutory regulatory and other requirements applicable
- Apply “Risk Based Thinking” within our operational systems and processes
- Ensure our environmental management system is conformant and certified to ISO 14001
- Conduct audits of key processes within the business as part of our continual improvement process
